DETAILED ACTION

Status of Claims

1. This action is responsive to amendment filed on January 21, 2009. Claims 1-4,7,9-11,13-16,19-23,25-28,31,33,34 and 36-44 remain pending.

Response to Arguments

2. Applicant's arguments filed 1/21/09 have been fully considered but they are not persuasive.
3. Applicant argues that Yadav fails to teach the “*scanning of packets that have been processed by the transport layer and are on their way to a particular application queue receive*” as mentioned in bottom of pg 11 of remarks.
4. ***In reply***, Applicant is reminded that the claim language is broad and is thus given its broadest reasonable interpretation. Since the claim only passingly and broadly mentions a “*communication to an application receive queue*” then this is treated broadly since the claim fails to limit whether this communication is destined to, belongs to, coming from, etc. in regards to the queue. There is also nothing in the claim that limits the communication to being processed by a transport layer. Thus, it is noted that the features upon which applicant relies are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. **Claims 1-4,7,9-11,13-16,19-23,25-28,31,33,34 and 36-44 rejected under 35 U.S.C. 103(a) as being unpatentable over Yadav (US Patent No 7174566) in view of Holland (US Patent No 6,851,061).**

7. For a listing of the detailed rejection see Office Action dated 10/17/2008.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
